

Aladin Crnkić, Ph.D. is an Assistant professor of Mathematics at the Faculty of Technical Engineering of the University of Bihać, Bosnia, and Herzegovina. He received an M.Sc. degree in mathematics from the University of Zenica, Bosnia, and Herzegovina, in 2013. Crnkić finished his Ph.D. thesis in 2019 at the Faculty of Natural Sciences and Mathematics, University of Montenegro. His research interests are mostly in the domain of mathematical physics, mathematical modeling, collective phenomena in complex systems, and swarm intelligence. He published more than 30 scientific and professional papers, out of which 13 were published in high-quality journals with impact factor. As an active participant, Crnkić has taken part in the project „STEAMedu – MSc course in STEAM education” and project "Introducing Student Research Mobilities to BIH Unis - INSTREAM".
